Kagan Coop. Learning for Elementary School Guidance Counselors - Part I PDP

Kagan Structures are scientifically research based as well as backed by classroom evidence from districts, schools, and teachers experiencing success with Kagan. Kagan Structures integrate the most powerful principles from decades of research. Among the many positive findings of this field or research are improved academic achievement, improved ethnic and race relations, improved social skills and social relations, and increased liking for self, others, and school. The Kagan Structures have proven themselves effective teaching and learning tools for cooperative learning, multiple intelligences, character education, language learning, and emotional intelligence.

K-5 elementary school guidance counselors will be engaged in activities that model these effective structures. Participants enrolling in this series must take both courses in this sequence.

Eligible Audience: K-5 Elementary School Guidance Counselors (Participants enrolling in this series must take both courses in this sequence.)
