VIRGINIA BEACH CITY PUBLIC SCHOOLS

High School Report Card

ISSUED 2006-2007

Dear Parents or Guardian:

We are pleased to provide you with the ninth annual School Report Card containing important information about your child's school. This report card is an important part of educational accountability designed to help you assess many aspects of your child's school and evaluate its success over time.

In addition to school and staff characteristics for the current school year and student performance for previous years, you will find information related to the school's progress toward meeting state and federal standards. I am pleased to indicate that for the current year, 100 percent of our schools earned full state accreditation.

Schools are also expected to make Adequate Yearly Progress (AYP) based on criteria required by the *No Child Left Behind (NCLB) Act of 2001*. A school's AYP status is based on Standards of Learning (SOL) test results and other factors such as attendance rates or science performance for elementary and middle schools and graduation rates for high schools. Criteria for meeting AYP are set for all students and for subgroups of students, including economically disadvantaged, limited English proficient, and students with disabilities, as well as for major racial and ethnic groups. Each student subgroup within a school must achieve all of the annual objectives for the school to be classified as making AYP. We are proud that 94 percent of our schools made AYP for the 2006-2007 school year based on 2005-2006 data.

However, maintaining our school division's excellent record of continuous improvement depends on our students, teachers, staff, community, and family members like you. We hope that you will continue to help us succeed through your commitment to your child's education and by taking an active role at your child's school.

Sincerely,

James G. Merrill, Ed.D.
Superintendent

STUDENT PERFORMANCE INFORMATION

The Stanford Achievement Test 10 (SAT 10) is a norm-referenced multiple-choice assessment designed to compare the achievement of students with a nationally representative sample. The numbers reported below are percentile ranks based on the average score received by the particular student group. In this case, the percentile rank represents the group's relative standing compared to the nationally representative sample. For example, if the group of students has a percentile rank of 50, it means that the group of students performed as well as or better on the test than 50 percent of the national sample of students.

STUDENT PERFORMANCE INFORMATION

The Standards of Learning (SOL) tests are state mandated achievement tests used by students to earn verified credits for graduation and by schools and the division to assess student achievement and plan for continuous improvement. The test results are also used to determine school accreditation and AYP status. The 2005-2006 SOL performance shown in the following tables and graphs are based on the data in the individual school report cards provided by the Virginia Department of Education at <https://t1pe.doe.virginia.gov/reportcard/> and reflect the percentage of students at each proficiency level. Results for individual SOL tests are available at <http://www.vbschools.com/SOL.asp>.
