Pinnacle Gradebook

To protect the confidentiality of your student's grades and other information stored on the system, your password and account information must not be shared with others. Virginia Beach City Public Schools cannot and will not be responsible for any disclosure of student information that occurs as a result, directly or indirectly, of the parent/guardian's failure to safeguard the necessary access information.

As you review grades and attendance data in the gradebook, please note that the data represents a "snapshot in time" and as such is subject to frequent change as teacher post new information. Parents/guardians should expect the passage of a reasonable amount of time to allow teachers to collect and assess student work prior to posting the grades.

PINNACLE SYSTEM

Information available from the Welcome Page:

- The 'Information About Your Child' section contains links to student specific data in SchoolNet including demographics, enrollments, academic marks, national and state test results, and programs the student is enrolled in (see sample screen shots on following pages).
- The data accessed from the Pinnacle Gradebook section is the live data from the teachers' Gradebooks in Pinnacle.
