Counselors are available to assist parents and students with course selections and career planning. Parents may arrange to meet with the counselor by calling the school’s guidance department.

COURSE DESCRIPTION
Core English 8 provides a variety of opportunities in reading and writing through students’ examination of various genres, authors, characters, people, and themselves. This course is organized around the overarching theme of Challenges and reflects a variety of encounters with literature: non-fiction, short stories, novels and excerpts, historical fiction, narrative non-fiction, and media. Major goals of the eighth-grade program include: strengthening writing and organization with an emphasis on expository and persuasion, reading comprehension, critical thinking, and research skills along with developing effective communication through group discussions and oral presentations. The students will use the writing process to develop expository, narrative, reflective, and persuasive writing. Through writing instruction, students learn to analyze their own writing, and set goals to improve their composing and expression, and grammar, usage, and mechanics. The students continuously revise and edit their work as they build their writing. Additionally, they begin to read and write critically in response to literature.

Writing, reading, discussion, performance based assessments, and classroom presentations require that the students move beyond literal recall of facts to an interpretation of literature with cooperative written response. Students are provided opportunities to examine various purposes for writing and to consider how writers make choices based on audience, purpose, and format. Throughout the year, the students continuously revise and edit their work as they build their body of writing.

At this grade level, students take the two Standards of Learning (SOL) tests for grade eight: English: Reading and English: Writing. Specific dates for the SOL tests will be announced by the school.
